

FOURTH ANNUAL STATEMENT
OF THE
TRADE AND COMMERCE
OF
CHICAGO,
FOR THE

YEAR ENDING DECEMBER 31, 1861.

REPORTED TO THE
CHICAGO BOARD OF TRADE,
BY

SETH CATLIN, SECRETARY.

CHICAGO:
THE CHICAGO TIMES PRINTING ESTABLISHMENT,
No. 74 RANDOLPH STREET.
1862.

OFFICERS
OF
THE CHICAGO BOARD OF TRADE,

From April, 1861, to April, 1862.

STEPHEN CLARY, - - - - - PRESIDENT.
CLINTON BRIGGS, - - - - - 1ST VICE PRESIDENT.
E. G. WOLCOTT, - - - - - 2D VICE PRESIDENT.

DIRECTORS:

J. V. CLARK, CHAS. E. CULVER, V. A. TURPIN,*	CHAS. HINCKLEY, J. L. HANCOCK,* SAM'L SHACKFORD,* C. J. DAVIS,	CHAS. H. WALKER,* HUGH ADAMS, C. H. CURTIS.*
--	---	--

SETH CATLIN, SECRETARY. GEORGE WATSON, TREASURER.

COMMITTEE OF ARBITRATION FOR FIRST SIX MONTHS:

SILAS PRATT, J. D. BAILIE,		THOS. PARKER, WM. D. HOUGHTELING, C. Y. RICHMOND.
-------------------------------	--	---

COMMITTEE OF ARBITRATION FOR SECOND SIX MONTHS:

L. D. NORTON, W. N. BRAINARD,		S. A. KENT, T. T. GURNEE. J. K. FISHER.
----------------------------------	--	---

COMMITTEE OF APPEALS:

S. T. ATWATER, E. RAWSON, GEO. STEEL,	SAM'L HOWE, F. D. GRAY, WM. H. LOW,	ASA DOW, GEORGE ARMOUR, HUGH McLENNAN.
---	---	--

COMMITTEES OF THE DIRECTORS:

ON FINANCE, - - - - - CLINTON BRIGGS, J. V. CLARK, V. A. TURPIN.
ON GRAIN INSPECTION, - - S. SHACKFORD, CHAS. HINCKLEY, C. J. DAVIS.
ON OTHER INSPECTION, - - CHAS. H. WALKER, J. L. HANCOCK, HUGH ADAMS.
ON ADMISSION OF MEMBERS, - E. G. WOLCOTT, CHAS. E. CULVER, C. H. CURTIS.
ON TELEGRAPH MESSAGES, - V. A. TURPIN, E. G. WOLCOTT, J. L. HANCOCK.
ON FLOUR INSPECTION, - - V. A. TURPIN, E. G. WOLCOTT, W. H. LOW.

The Directors marked thus, (*) serve one year; the remainder, two years.

BOARD OF TRADE ROOMS,
CHICAGO, January, 1, 1862.

STEPHEN CLARY, Esq.,

President Board of Trade :

SIR:—It again becomes my duty to present to the Board a report of the "Trade and Commerce" of our city for the year just passed. The increase in the cereals noted in our last report has continued this year in a remarkable degree, and our city may well be proud of her position, standing, as she does, far ahead of all others in this branch of trade. The largely increased trade this season, is owing somewhat to the receipts of products which have usually found a southern market *via* St. Louis and other points, but mainly to the largely increased crop of the country tributary to us.

The year 1861 has not been so favorable as the year 1860, yet it is generally thought the crop throughout the country is nearly if not quite as large, much more land having been cultivated. The grain, however, was not so well saved, spring wheat and barley having suffered much damage from the heavy fall rains in some parts of the country.

The receipts of Lumber foot up 235,673 M against 262,474 M in 1860. The business has been very satisfactory to manufacturers and dealers. In giving the stock of lumber on hand, that of one large dealer is omitted, he refusing to give stock to any one not authorized by the Lumber Association.

Receipts of Live Stock have been large with much activity in the market.

The carrying trade has been unsurpassed, every vessel on the lakes having been fully employed during the season, leaving a large stock in store at the close of navigation.

The system of Grain Inspection introduced by the Board in 1858, and improved from time to time, has arrived to a great degree of perfection, proving of vast benefit to all who handle the grain. The inspection books show that out of grain received there has been inspected as follows:

In 1858 received	14,032,291 bushels.	Inspected,	7,294,600 bushels.
" 1859 "	14,728,542 "	"	8,987,806
" 1870 "	32,824,958 "	"	27,101,768
" 1861 "	45,970,687 "	"	43,870,065

It will be observed that the proportion inspected has increased from year to year, until almost the entire receipts are now inspected.

The want of a flour inspection has been long felt in Chicago. During the year, one has been established, as far as correctness in weight and uniformity of quality is concerned, but it has not yet been thought proper to establish grades.

In consequence of our difficulties with the South, their stocks (with which the circulation of our banks was largely secured), became depreciated early in the season, causing heavy losses and great confusion to the business community. But for this the general business of the year would have been very satisfactory.

At no time since its inauguration has the Board been in so flourishing a condition as at present. Since our last report, forty feet have been added to the building, on the east, making the rooms now occupied by the Board for Secretary's office, Grain Inspector's office, Reading room, Sales room, &c., one hundred and sixty feet long, by about fifty feet wide. Its members number over 800. Quite a number of firms from Cincinnati, St. Louis, and other points, have come to Chicago, transferring most of their business to this place.

SETH CATLIN, *Secretary.*

ANNUAL STATEMENT.

STATEMENT

NOTE.—April 13 and December 21 are amounts furnished by warehouse-men. The other figures are estimates.

INSPECTION OF GRAIN.

To the President and Directors of the Board of Trade :

Your Inspector begs leave to submit the following REPORT :

In April last, SAMUEL SHACKFORD, C. J. DAVIS and CHARLES HINCKLEY, Esquires, were appointed by the President, a Committee of Inspection, for the following year.

In June last, S. H. STEVENS, Esq., resigned the office of Chief Inspector, when the present appointment was made ; and with the efficient aid of the Committee, this very important system has been conducted with impartiality and to uniformly favorable results.

The receipts of Wheat for the past season have been very large, and, with the exception of that which has been received from a small portion of our Wheat-growing districts, has come forward generally in good condition, and of excellent quality, and will compare very favorably with that of any former year, giving abundant evidence of the great resources of the North-West.

The receipts of Club Wheat show a material decline, which may be partially owing to the unfavorable season for that variety. No change of grades has been made, the permanency of which has proved beneficial to the system.

The amount of Corn inspected has been double that of last year, and of a superior quality. The receipts by Canal have been unprecedentedly large, and, having been fully sustained by the receivers, our system of inspection has contributed much to facilitate the disposition of this immense quantity.

The grades and requisites of the different kinds of Grain, are, as established by the Board in 1860, as follows :

WHEAT.

No. 1 WHITE WINTER.—The berry to be plump, well cleaned, and free from other grains.

No. 2 WHITE WINTER.—To be sound, but not clean enough for No. 1.

No. 1 RED WINTER.—The berry to be plump, well cleaned and free from other grains.

No. 2 RED WINTER.—To be sound, but not clean enough for No. 1.

REJECTED WINTER.—All unsound, unmerchantable wheat, and to weigh not less than 45 lbs. to the measured bushel.

EXTRA CLUB.—To be sound, well cleaned, and to consist of pure Club Wheat, weighing not less than 60 lbs. to the measured bushel.

NORTH-WESTERN CLUB.—To be sound, well cleaned, and to comprise all kinds of bright amber-colored Spring Wheat, weighing not less than 59 lbs. to the measured bushel.

No. 1 SPRING.—The berry to be plump, well cleaned, free from other grains, and to weigh not less than 59 lbs. to the measured bushel.

No. 2 SPRING.—To be sound, but not clean enough for No. 1, and to weigh not less than 56 lbs. to the measured bushel.

REJECTED SPRING.—All unsound, unmerchantable Spring Wheat, and to weigh not less than 45 lbs. to the measured bushel.

CORN.

PURE WHITE, PURE YELLOW, MIXED, REJECTED AND NEW.

TRADE AND COMMERCE OF

OATS.

No. 1.—To be clean and sound.

No. 2.—To be sound, but too dirty for No. 1.

REJECTED.—Unsound or very dirty.

R YE.

No. 1.—To be sound and well cleaned.

No. 2.—Too dirty for No. 1.

REJECTED.—Unsound or very dirty.

BARLEY.

No. 1.—The berry to be plump, well cleaned and sound.

No. 2.—To be sound and clean.

REJECTED.—Unsound or very dirty.

FEEs FOR INSPECTING.—Ten cents for the contents of each car; for each 1000 bushels departing by lake, 20 cents; for each canal boat arriving, 75 cents.

Taking into consideration the very large amount of Grain inspected, the system is thought to give general satisfaction. All Inspectors are required to give bonds for the faithful discharge of their duties, which holds them responsible for erroneous inspection. There is a correct record kept of all grain inspected, accompanied with the necessary remarks. We give above a full statement of all grain inspected from the year's receipts.

HENRY COGGER, CHIEF INSPECTOR.

FLOUR.

Our receipts of this article have been more than double that of any previous year. There has been an abundance of Wheat, of excellent quality, throughout the country tributary to Chicago, and the season has been favorable for grinding. Besides this, a large amount of Flour has sought a market here, which has heretofore found one in St. Louis, and other points, for the Southern trade. Many new brands have been added to the varieties formerly sold here.

Few, if any, primary markets in the world, furnish as much of this article of traffic, as Chicago. Nowhere is as great a variety found.

The year closes with comparatively a small stock on hand, say 26,986 barrels.

TABLE

Showing the quantity of Flour received for eight years, (including that manufactured in the City,) with the quantity forwarded, during the same period.

TOTAL.....	291,852

WHEAT.

The total crop of 1860, marketed in Chicago, was 17,886,699 bushels, being 3,801,526 bushels more than had been received here from the crop of any former year. The receipts for the year foot up 17,385,092 bushels, being 2,957,919 bushels more than the receipts of any former year.

Although the yield per acre was not as large, the crop of 1861 was probably as large as in 1860, a larger area of land having been sown. The inspection of wheat shows that the grades received were better than any former year.

The following table gives the quantity received and forwarded for the last eight years:

CORN.

The unprecedented crop of Corn in 1860, followed by a large one in 1861, increased receipts for the last year to 26,369,989 bushels—being 10,767,809 bushels more than any former year. So large have been our receipts, and so small the comparative outlet, that Corn has been a drug in the market the entire year, opening at 30 cents per bushel in January, and closing at about 23 cents per bushel in December—selling in September as low as 20 cents per bushel.

Farmers have been poorly remunerated for their labor in raising Corn the last year; selling as it has for about what it has cost to get it to market, leaving very little for raising.

The following table shows receipts of last seven crops of corn at Chicago:

OATS.

Receipts for the year foot up 2,067,018 bushels against 2,198,880 in 1869. The crop throughout the country was larger, but in consequence of high freights and other causes, a small quantity only has come forward; those marketed having been taken mainly for army supplies and consumption here. The year closed with a stock of 250,205 bushels in store. The following table shows receipts and shipments for seven years:

RYE.

The year opened with a comparatively large stock on hand, with prices at 46 cents per bushel. The trade has been characterized throughout the entire year, as being dull, with forced sales.

Shipments have been larger than ever before. The year closes with 78,437 bushels in store.

The receipts and shipments for eight years, are shown in the following table :

T A B L E

HOGS.

As will be seen from our tables, receipts for the year foot up 675,902 hogs, being a larger number by 135,416 than in any former year. There has already been cut 229,850 head, and the packing for the season will undoubtedly be larger than at any point, with the exception of Cincinnati. The Hogs cut, have been uncommonly heavy, both in the spring and fall packing; one lot of 1,044 which came over the Burlington Railway, in February, from the neighborhood of Neponsit, Bureau County, Illinois, averaging 310 pounds each. Those cut during the year, will average over 250 pounds, showing that the quality, as well as quantity, improves yearly.

The following table shows receipts and shipments of Hogs for a series of years:

BEEF CATTLE.

The following Table shows receipts and shipments of cattle for four years. An increase of 7,478 head is shown over any former year, notwithstanding our supply from the Southwest has been cut off.

As large numbers have been taken for the Army, the trade has been active and prices quite satisfactory.

Out of the 204,579 received, 53,754 have been cut by Packers against 34,623 in 1860.

LUMBER.

A review of our Lumber Tables will show that receipts and sales have been smaller in 1861 than for many years. Trade has been active, however, and the year's business would have been very satisfactory to dealers, but for the depreciation in our currency. The following Table shows the stock of Lumber on hand at the close of the year, as furnished by Wm. McGLADE, Esq.

1st Clear.....	2,846,531	Siding	1,634,600
2nd Clear.....	6,180,109	Sawed and Hewn Timber.....	3,172,972
3rd Clear.....	9,221,718	Culls	3,025,787
Clear Flooring.....	8,340,128	Scantling	3,289,723
Common ".....	8,996,157	Unassorted Lumber.....	2,840,548
Fencing.....	10,945,982	Shingles.....	15,307M
Common Boards.....	10,947,702	Lath.....	7,814M
Jolst.....	9,635,484	Cedar Posts.....	15,085
Common Plank.....	2,610,377

SEEDS.

The same increase in receipts, noticed for several years, has continued in 1861. There is no new feature to mention in the trade, except the falling off in prices. It is well known throughout the country that Chicago is the place to purchase pure Seeds.

SALT.

The tables which follow will show that our receipts and shipments of this article have largely increased the last year. This is owing to the blockade of southern ports, thus cutting off the supply of Kanahwa and other Salt, which has usually found a market in the Northwest, and the esteem in which Syracuse Salt is now held by our consumers for packing and other uses.

In addition to the Salt mentioned in our tables, 2,218 tons have been received from Canada, in bulk, for packing purposes.

TABLE, Showing the quantity of Salt Received and Forwarded during the year 1861.

HIDES.

Our tables show that while receipts from the different sources of supply are less than for three years, more have been taken from cattle, slaughtered in the city, than ever before; and our trade has not materially diminished in this article, although a vast quantity are now purchased by parties in the country, and shipped east by railroads not touching at Chicago.

TABLE

Showing the quantity of Hides received and forwarded for three years.

HIGHWINES.

The traffic in Highwines continues to increase yearly. Some new features may be noted in the trade last year, among which may be mentioned the increased receipts from the country, and the decrease of consumption in the city. Prices have ruled low throughout the year, being mainly governed by prices of Corn.

RATES OF TRANSPORTATION.

Our weekly quotations show that freights, both by Lake and Railway, have ruled higher than for many years. Vessel owners and other carriers have experienced a harvest which was scarcely expected. So great has been the demand for vessels, that everything capable of carrying grain, has been called into commission for that trade; notwithstanding which, a large amount is left over for shipment.

MANUFACTURES OF CHICAGO.

Herewith we present a statement of the manufactures of our City in 1861. We would mention that the amount set down as invested in buildings and machinery does not embrace cost of buildings, except in those marked thus *, but simply rent and fixtures of the buildings occupied.

As much objection has been made by different parties to give an expose of their business, it has been next to impossible to give correct figures for this review. We have tried to avoid this objection by publishing the gross amount without giving the names of those furnishing information, and are in hopes, in future, anything asked for by the Board for their Annual Report, can be had without the trouble experienced in procuring what we now publish. No doubt many articles manufactured are omitted in this Report, but its correctness, as far as it goes, will be vouched for.

There seems to be nothing in the way of our being the largest manufacturing city in the Northwest, being blessed as we are with a healthy location, and every facility for rapid transportation of materials to manufacture, and for the distribution of articles manufactured, for the abundance and cheapness of fuel, provisions, and mechanical labor, and all other advantages necessary for success in this branch of business.

STYLE OF MANUFACTURE.	Amount Invested in Building and Machinery.	Number of Hands Employed.	Total Amount Manufactured.
*Iron Works, Steam Engines, etc.....	\$1,061,000	1,330	\$1,532,000
